

Tidda

Tidda supports women living with disability to gain NDIS support.

Results

- ✓ 89% reduced reoffending.
- ✓ 80% increased healing from trauma.
- ✓ 70% who needed a home were housed.
- ✓ 54% gained an income.

Conclusion

University research found stable accommodation, reliable income, increased engagement with people/services, and increased engagement with education, training, or employment, led to reduced reoffending. Our data found:

- ✓ 100% who needed a home & were housed reduced their reoffending.
- ✓ 89% who gained an income reduced their reoffending.
- ✓ 92% who demonstrated increased engagement with people/services reduced their reoffending.
- ✓ 71% who attended a life skills workshop reduced their reoffending.
