- ✓ 80% who improved connection with their children reduced their reoffending
- ✓ 71% with increased life skills reduced their reoffending

I'm very happy to have had Outcare as a part of my journey after being released from prison... Outcare has been able to speak with me and guide me through hard times. They have been able to assist me with DCP and getting my own Homeswest house

I have never been given a clear diagnosis or help to get support and Tidda has been helping me with this.
